

I. READING

No free time!

Bethan lives on a farm in the north of Wales. Her parents come from England. They grow lots of vegetables. But Bethan loves animals, so the vet gives her homeless animals. She looks after them in her free time.

Bethan says, 'My hobbies are my animals! I've got a dog called Sam, two cats, and a horse called Mr Ned. I've also got three lambs, two pigs, four goats and two llamas!'

In the morning, I always get up at quarter to six. Then I go outside and give all the animals their breakfast. After that, I usually have my breakfast!

After school, I visit all the animals again. I feed them, and clean their houses.

I love all my animals, but my favourites are the goats. They are so funny and cute. My friends love my animals, too, so I often have lots of visitors after school!
