A day in the Life of Nadine

Nadine is 14 years old and lives with her mum, sister and two brothers in Burkina Faso in West Africa. She is in 7th grade at school, but her typical day is not like a typical school day for teenagers in Europe. Every morning, Nadine gets up very early, at 4 am. She cleans the house. After that, she makes breakfast and prepares her brothers and sister for school. Then she rides her bike to school.

School starts at 8 o'clock. Nadine's school subjects are French, English, maths, African history, geography, science, art and PE. She loves languages and African history, but she hates maths and science. She is quite good at PE. She can run fast and she rides her bike a lot.

At noon, Nadine cycles back home and has lunch. Then, she goes to the market and helps her mother before she goes back to school. After school, she and her sister cook dinner for the family. There isn't electricity in Nadine's house, so she can't watch TV or surf the Internet. Nadine does her homework and reads with a candle. Then she goes to bed.
